Our Focus

The school's mission is to provide excellent educational experiences for all students and to promote respect and to clearance for all is under pinned by the strong core values of: Commitment, Acceptance, Respect, Excellence and Strength. The positive tone and culture within the school is supported by a highly professional staff, together with a hard working school council and community association

OUR PEDAGOGICAL VISION

Our students receive ongoing, specific and meaningful feedback about their progress. They are self-reflective and participate in regular one-on-one conferencing with their teachers to discuss, refine and extend their learning goals. Teachers facilitating students' understanding of curriculum expectations by using whole school documentation that explains curriculum standards in language that can be easily understood by our students.

Our teachers work in collaboration to develop and implement an inquiry driven curriculum. Student grouping is flexible, enabling essential skills and knowledge to be explicitly taught at student's individual point of need.

Teachers share and refine their practice by learning and working in teams.

Mutually respectful working relationship exist between staff, parents and the broader community, focusing on supporting and extending student learning through providing opportunities for the applying their skills and knowledge to real life experiences.

Our Teaching Learning Approach

- Carefully planned curriculum based on each individual child's needs which includes:
- Emphasis on prior knowledge
- Stress on individual interests
- Focus on individual learning styles
- Identifying the abilities and skills of students helps them identify their future learning goals.
- Students and teachers constructing learning pathways together based on two-way feedback conversations.
- Experiential learning as a way of life is not environment or curriculum specific
- Teachers and students hold feedback conversations to discuss data and developmental needs and together they set goals. They discuss ways to reach those goals and the types of evidence that the students will need to produce.
- Scope and sequence need to be flexible.
